Subject No. 201.
Extension of Bogadi road to Bheemanahalli Police Station.

Mr. Madappa.

Summary of discussion.—The question of extending the Bogadi road below the Kukkerhalli tank to Gurupur or the Bheemanahalli Police Station lying on the Hunsur-Heggadadevankote road was repeatedly urged on the consideration of Government, but the Representatives were informed at the meeting of 1899 that the Deputy Commissioner would have the work carried out as soon as funds were available for the purpose. About 40 or 50 villages will be benefited by the proposed extension. Early orders are requested for the execution of the work.

Reply of Government.—This is a question of funds Referred to the President, Local Fund Board.

Subject No. 202.
Abolition of tolls in the Mysore City.

Mr. Madappa.

Summary of discussion.—The inhabitants of the Mysore city are at present put to much difficulty, and the whole of the population depends for its supply on food grains imported into the city. It is therefore requested that the tolls levied at present at the several toll gates may be discontinued.

Reply of Government.—It is not possible to reduce income in this way, while all kinds of improvements are pressed on the attention of Government.

Subject No. 203.
Improving the Anandur channel.

Mr. Amble Anniah Pandit.

Summary of discussion.—The question of the non-supply of water to the Anandur channel was discussed at the previous meetings, when the Representatives were informed that the proposed extension of the Alalkatte channel to the Kukkerhalli tank would afford ample facilities in respect of water-supply. They were subsequently told at the meeting of 1899 that the extension of the Alalkatte south channel had been abandoned. The Executive Engineer who inspected the channel this year informed the raiyats owning lands under it, that water could not be let beyond the 15th mile. The Public Works Department once took levels for supplying the Anandur channel from the Tippur channel. If this work be executed, the channel will furnish an adequate supply of water to lands up to the 22nd mile. The raiyats are prepared to pay a contribution towards the cost of the work.

Reply of Government.—Referred to the Chief Engineer for investigation.

Subject No. 204.
Improvement of Municipal Revenue.

Mr. Badami Rangasetty.

Summary of discussion.—It is prayed that the realizations of the tolls on the Yedatore bridge be given over to the Municipality.

Reply of Government.—Not desirable. The Municipality is not entitled to it.

Subject No. 205.
Improving the Sanitation of Manchanahalli and other villages.

Mr. Badami Rangasetty.

Summary of discussion.—Manchanahalli and other villages are rendered damp and unhealthy owing to the Chamaraja channel extension. It is prayed that this evil may be remedied.

Reply of Government.—Referred to the President, Local Fund Board.
